

RLI PRODUCTS: PROPERTY • CASUALTY • SURETY

RLI isn't like other insurance companies.
Neither are our products. They're designed to meet
the specific needs of our unique policyholders.

RLI is a specialty insurer with a diversified portfolio of property and casualty coverages and surety bonds. Our products are flexible and continually improved to provide the best possible coverage.

Each line of RLI business is supervised by an underwriting officer with decades of experience in managing that product line. Underwriters can be found throughout our branch office network, providing a localized presence to their customer base. While our underwriters span the entire country, they

are all guided by a consistent approach to delivering the innovative insurance solutions their customers have come to expect from RLI.

Guiding all our efforts is an underwriting philosophy to which we steadfastly adhere: We initiate no new program or product without first obtaining the requisite level of underwriting expertise. Creative underwriting, particularly during soft markets, is a given. Combined ratios under 100% are another RLI staple. As a result, our balance sheet is one of the strongest in the industry.
